

## Our Facilities

### UMDNJ-Robert Wood Johnson Medical School

As one of the nation's leading comprehensive medical schools, Robert Wood Johnson Medical School (RWJMS), with campuses in New Brunswick, Piscataway and Camden, is dedicated to the pursuit of excellence in education, research, healthcare delivery and the promotion of community health for the residents of New Jersey. As one of eight schools of the University of Medicine and Dentistry of New Jersey system, Robert Wood Johnson Medical School is separate from all other UMDNJ schools, including The New Jersey Medical School in Newark. With 2,400 full-time and volunteer faculty, the medical school maintains educational programs at the undergraduate, graduate and postgraduate levels for more than 1,500 students, as well as continuing education courses for healthcare professionals.

### Robert Wood Johnson University Hospital

With its central location in New Brunswick, its status as a Level 1 Trauma Center and the depth of healthcare resources available, Robert Wood Johnson University Hospital (RWJUH) is a leader in the provision of Emergency Care to the residents of central New Jersey. RWJUH is the only academic medical center and provider of tertiary and quaternary healthcare services in central New Jersey. Immediately adjacent to RWJUH is the Bristol-Myers Squibb Children's Hospital, providing state-of-the-art care to the pediatric patients of central New Jersey.

    - 1 block Administration/Research
    - 1 block Elective

## Our Department

### **The Department of Emergency Medicine**

established a presence at the New Brunswick campus in 2005. Since then, we have become an important and influential voice in the medical school, hospital and medical group.

Currently the emergency medicine faculty include:

- 18 Full-time Emergency Medicine trained, board certified or board prepared physicians
- 7 Pediatric Emergency Medicine board certified or board prepared physicians.

### **EMS**

Our department sponsors an Emergency Medical Services/Disaster Medicine Fellowship. Prior fellows have gone on to EMS leadership roles in Denver, Philadelphia and New York.

### **Toxicology**

Our faculty includes Dr. Ann Jeanette Geib, a fellowship-trained toxicologist. As she continues to develop a toxicology consultation service for the hospital, this will add a unique educational experience for our EM residents.

### **Emergency Ultrasonography (EUS)**

Our faculty also includes 2 fellowship trained, EUS experts: Rajesh Geria, MD, RDMS, and Dan Morrison, MD, RDMS. Under Dr. Geria's leadership, all EM faculty are in process of gaining EUS expertise and many are credentialed in life-saving applications such as E-FAST, cardiac and aorta. Future directions of the department include designing an ultrasound-guided vascular access simulation lab and an ultrasound fellowship.

## Contact Us!!

**ROBERT WOOD JOHNSON  
MEDICAL SCHOOL**

University of Medicine & Dentistry of New Jersey

**New Brunswick, New Jersey** is a vibrant city of 50,000 residents, a number that triples during the business day with college students, corporate and business employees, hospital and healthcare workers and visitors. It is a community with richly diverse neighborhoods, a bustling downtown, and an innovative and popular cultural arts center. Within a few city blocks converge Johnson & Johnson's world headquarters, Rutgers-The State University of New Jersey, Robert Wood Johnson Medical School, two premiere academic hospitals, three professional theaters, several four-star restaurants, and two four-star hotels.

New Brunswick is an easy destination to reach. The train station, located two blocks from the medical school and hospital, provides access to Amtrak and NJ Transit. A quick 40 minute train ride puts you at the heart of New York City, Penn Station.
